A letter received from Mr. Magruder deted at Washington October 15, 1906, was received by Judge John F. Hickey, foreman of the Smallwood jury, this morning. The exact contents of the letter are not known. The opinion prevalls, however, that it has a direct bearing upon the case.

The letter was turned over to Coroner Carr to be used at a later date.

KAISER DID NOT CLAIM CREDIT FOR PEACE ASSESSMENT COMPANIES

Representative W. A. Smith Says German Emperor Gave Roosevelt His Due.

The report that the Emperor of Gernany has been disposed to claim some of the credit for bringing about peace between Russia and Japan was effectually dispelled this morning by Representative William Alden Smith,

Mr. Smith was in the party of Amercans which was dined by Emperor Wiliam on September 2.

with it. Such a man writes from the towering peaks of Colorado, preaching of Postum:

"I had drank coffee all my life until it about killed me, when I concluded to try Postum, and in a short time I got relief from the terrible misery I suffered from coffee.

"When I drank coffee I bloated up so that I could not breathe at times; my nerves were so shaky that I could not hold myself still.

"But thanks to Postum I am well now and can say that I hope to remain so." I was very much disgusted with it the first time I tried it, but had it made stronger and boiled longer till it tasted as good as good coffee."

Insurance Investigations Bids Well for Future

(asualty Company of America, with leadquarters in New York, formerly assistant Secretary of the Treasury. declared here today that good would come of the insurance investigation now being conducted in New York. Mr. Armstrong has been attending the convention of bankers here and expressed himself on the insurance scandals at the White House Offices following a call on the President.

"The general effect of the insurance investigation and exposures will be ex-cellent," said Mr. Armstrong. "In the long run this will be true not only of insurance but of all corporaton matters. The revelations are emphasizing the responsibility of the director and they will tend to make him less of a figurehead

than he has been hitherto.
"The effect is going to force men to carry out in private business what the Treasury officials have insisted upon for some time in the affairs of national The Comptroller of the Currency insists upon making the directors of a bank responsible for the condition ruthlessly immoral influences directed by letter direct and the blame for sub-against her when she went to Vienna as sequent disaster cannot be escaped by any sort of dodging of responsibility. To a large extent, this same result will be achieved as a result of the present overhauling of insurance matters.

Motives Misconstrued.

"There has been much exaggeration in the reports of week sing and motives have been misconstrued in many cases. That there has been the grosses kind of mismanagement in some cases cannot be denied. But the present investigation is clearing the atmosphere rapidly.

"Another effect of the inquiry will, in my judgment, be a reorganization of campaign methods. The facts shown about the campaign contributions of various corporations indicate the abso lute necessity of a law compelling the publication of campaign contributions and expenses. Such a law will hurt none and it will be welcomed by the men who honestly manage campaigns men who honestly manage campaigns and who contribute to them. The expenditures in any national campaign of either party amount to millions and to collect and disburse such sums without any audit or report whatever is unbusinesslike and un-American and offers the greatest opportunity for fraud. The day of the covert campaign fund is over. The strongest men of both parties insist on this corrective measure and it is bound to come in the very near future, and probably before another national campaign.
